

Summer course in Artificial Intelligence

Exploring the impact of AI from a legal and economic perspective

Monday 8th July 2024 to Tuesday 16th July 2024

Location: Assas campus, Singapore

Dates are indicated in Singapore Time (GMT+8)

As artificial intelligence (AI) gains momentum, understanding the challenges and opportunities created by AI is crucial. Numerous questions arise regarding the use of AI, which can be seen as an object of regulation by lawyers, but also as a useful tool for law enforcement. Notwithstanding the advances involved in AI, its use also raises moral and ethical issues, in addition to legal issues.

COURSE DESCRIPTION

This interdisciplinary course offers a dual approach to artificial intelligence through the eyes of an economist and a lawyer.

Different questions will be addressed, such as:

- The impact of AI on the labor market, from a macroeconomic and microeconomic perspective.
- How AI can help legal professionals.
- The development of predictive justice.
- AI applications to predict law violation, judge's decisions, law enforcement decisions.
- Bias and ethics of AI applications to the law.
- The numerous roles of AI in various sectors within society and their legal implications.

The objective of this course is to give an overview of the many interesting intersections between AI, economics and the law. This is an emerging, multidisciplinary and multinational area. Several practical cases will be investigated and an introduction to coding will be provided.

 The number of participants is limited to a **maximum of 25 people**. Registration is open until **May 31, 2024**.

Course leaders

Dov GREENBAUM

Professor Dov Greenbaum teaches law at the Interdisciplinary Center Herzliya, a private university in Israel. He is also the Director of the Zvi Meitar Institute for Legal Implications of Emerging Technologies. Concurrently, he is also a researcher in the department of Molecular Biophysics and Biochemistry at Yale University. Prof. Greenbaum has degrees and post-doctoral fellowships from Yeshiva University, Yale University, University of California, Berkeley, ETH Zurich and Stanford University.

In addition to his academic affiliation and training, he is also an intellectual property attorney (California & USPTO), with experience in the fields of biopharmaceutical litigation, and Hi-Tech patent drafting and prosecution, including drafting in the fields of robotics, software, computer hardware and defense.

In addition to his lecturing abroad, Professor Greenbaum has also taught a number of courses at Singapore Management University.

Quentin LIPPMANN

Quentin Lippmann is Associate Professor at the University of Paris Panthéon Assas, research fellow at the Paris Research Center in Law and Economics CRED and lecturer at the University of Essex.

His research analyzes lawmaking and the impact of public policies. He uses state-of-the-art empirical methods related to machine learning, natural language processing and causal inference in order to analyze large data sets. His research has been published in peer-reviewed international journals such as the Journal of Public Economics, the Journal of Economic History or The Economic Journal.

In addition to his research, Prof. Lippmann is used to teaching artificial intelligence methods and its consequences on the legal sector in different curriculums.

FORMAT

- 27 hours
- Conventional lectures in the morning
- Case studies and group work in the afternoon
- Debates and verbal jousts
- Cultural Visits
- Networking Event

The course will consist of a mix of conventional lectures (presentation and discussion of concepts, theoretical frameworks, research results, etc.) mingled with interactive sequences, such as case studies. The summer school will end with debates and verbal jousts.

LOCATION AND FACILITIES

Singapore has become one of the most prosperous countries in the world and positions itself as the region's financial and high-tech hub. Assas International campus is hosted by INSEAD next to One North, an area dedicated to education, research, innovation and business industries.

Facilities: library, multiple amphitheatres, printshop, wide and green outdoor areas, gym, restaurant, bars, etc.

FEES

- € 1,800 regular fee (deadline May 31st 2024).
- € 1,500 early bird fee (deadline April 30th, 2024) and current Assas students.

For accommodation or general enquiry, please contact us.

Scholarship

Thanks to La Fondation Panthéon-Assas, Paris-Panthéon-Assas University will be offering € 1,000 Merit Scholarships to a limited number of Assas students. Merit scholarships are awarded on the basis of both financial needs and academic merit including internships or participation in community service. Submit your application for our Merit Scholarship on our Summer school Online application.

Cross-disciplinary
Economic and legal approach combined

Excellence
Awarded by Université Paris-Panthéon-Assas, France's first law university

Experience abroad
Benefit from the strength of a network of committed partners

PERIOD

July 8th -July 16th 2024

TARGETED GROUP

Students with law or economic background (minimum bachelor, 2nd year). No economic or quantitative background is required.

ABOUT THE UNIVERSITY

The Summer Course in Artificial Intelligence is awarded by Université Paris-Panthéon-Assas, based in Paris. The University has branches in Dubai, Mauritius and Singapore where various programmes (LL.M, LL.B., Summer schools, executive education) are taught to international students.

SINGAPORE CAMPUS

Université Paris-Panthéon-Assas | Assas International Assas campus, Singapore
1 Ayer Rajah Avenue
138676 Singapore

The number of participants is limited to a **maximum of 25 people**. Registration is open until **May 31, 2024**.
