

EXECUTIVE PROGRAMME 2026

Cybersecurity for Law Firms: Protecting What Matters Most

DATE: Thursday 22nd January 2026
From 1.30pm to 4.45pm, Singapore Time (GMT+8)

Location: Assas campus, Singapore – *ONLINE ATTENDANCE IS ALSO AVAILABLE*

An executive training for law firms in Singapore on cybersecurity risks, best practices, and crisis response.

In today's digital economy, data is currency—and law firms are uniquely exposed. With privileged access to confidential contracts, litigation strategies, and high-value client information, they are increasingly prime targets for cyberattacks worldwide.

This intensive executive training equips legal professionals in Singapore with the tools, strategies, and awareness to navigate the cybersecurity challenges of the legal sector. The program blends real-world case studies with practical frameworks, offering participants actionable insights into preventing breaches, maintaining client trust, and safeguarding their firm's reputation.

The agenda covers five key areas:

1. **The Threat Landscape** – Understanding why law firms are high-value targets and learning from recent breaches.

2. **The Strategic Imperative** – Recognizing cybersecurity as a business-critical issue with legal, ethical, and financial dimensions.
3. **Prevention Through Best Practices** – Applying global standards such as ISO/IEC 27001 and NIST, tailored to legal operations.
4. **Building Resilience with Internal Policies** – Developing and enforcing the 10 essential cybersecurity policies every law firm needs.
5. **Crisis Response Planning** – Preparing a clear playbook for incident response, communication, and recovery.

Participants will leave with a deep understanding of their unique risk exposure, a concrete checklist of best practices, and a tailored crisis response framework. This seminar bridges legal relevance with technical clarity to deliver practical, strategic, and immediately applicable outcomes for law firms.
